SPOMATIC ELECTRIC SPONGE

17" cleaning width makes cleaning large grouted areas quick and easy with the RUBI SPOMATIC electric grout cleaning machine. The sponge rotates slowly as the machine is pulled backwards at a 45 deg. angle to the grout joint, leaving the joints full and cleaning in one pass. Adjustable roller with direct water injection rinses the sponge thoroughly with less wear and tear on the sponge.

Sponge for sanded grout included.

Sponges last approximately 5000 sq.ft.

\$1299.99 item 7000 *SHIPPING \$72.00**

**Motor freight to a commercial address in the continental USA.*

Sponges are easily changed and are available for epoxy grout and sanded grout.

Cleans 800 to 1000 sq. feet per hour!

Complete solution to grouting and cleaning large areas, the Maxititina Floor Machine, Grout Rake and Berta Electric Sponge.

A must have system for areas of 3000 sq. ft. or larger!

Maxititina - will float a floor quickly and easily with its 19" power grouting paddle.

Grout Rake with Pole - used to pull back excess material.

Berta - cleans the grout area at 800-1000 sq.ft. per hour, standing up! It leaves the grout joint evenly full in one pass.

MAXITITINA

2 Speeds, 55 & 110 RPM.

Power grouting with the Maxititina is quick and easy. The grout is dumped out across the tiled area in uniform, manageable amounts. Then, the Maxititina is used to spread the grout out and pack the joints full. The material is moved in a backward direction.

19" grouting paddle & ground fault interrupter included.

\$1599.99 item 1019 *SHIPPING \$72.00*

Multi-function machine, clean or grind floors.

Available attachments include water tank, twist lock backer pad, 17" felt disc holder, white nylon brush, sand paper or metal carbide grinding plate holding disc.

GROUT RAKE

After several grout rows have been filled with the Maxititina, the Grout Rake is used to pull back the excess material, then the process is repeated.

\$36.99 item 10191

BERTA ADVANCED ELECTRIC SPONGE

Cleaning large grouted areas is quick and easy with the Berta electric grout cleaning machine. The sponge rotates slowly as the machine is pulled backwards at a 45 degree angle to the grout joint, leaving the joints full and cleaning in one pass.

20% lighter than the original Berta; new features include a longer more ergonomic adjustable handle and quick-disconnect sponge drum for fast sponge replacement.

The sponge rotates thru a water sump and is cleaned before contacting the floor again.

Use the Raimondi Pedalo to clean the floor edges.

Sponge for sanded grout and ground fault interrupter included.

Sponges last approximately 5000 sq.ft.
